

WRENTHAM YOUTH PROJECT

REPORT APRIL 2020

Time has gone really fast over the past 12 months. The youth project was open during the months of May, June and July with normal activities with some of the older members helping us to manage the hall. A new projector was of great usage as we were able to play “ Just Dance and Mario Cart” on the large screens. We have found that the young people love challenging the Youth workers and beating them!

During the summer period my mother became ill, being 101, and for the first time in my youth work career, my family became priority. Due to this all the centres which I was involved with closed.

On the 1st January she fell at her home and had to be admitted into a care home.

Subsequently during March she passed away.

At the present time the team have decided that the project will remain closed until at least September 2020.

Despite all of this I have seen various your people out and about and they are very keen to come back to the project as soon as they can.

Youth Work Team.
