

Wrentham Parish Council - Transparency Code for Smaller Authorities

In December 2014 The Department for Communities and Local Government (DCLG) issued the Transparency Code for Smaller Authorities. The Code is a requirement for smaller authorities to make information available for local people to increase democratic accountability.

This page allows you to access all of the information that we are required to publish under the Transparency Code.

The information will be available by 1st July each year following the end of the financial year it relates to. The exception to this is the publishing of minutes and agendas of formal meetings which will continue to be published on an ongoing basis.

Financial Year 1st April 2018 to 31st March 2019
